

NATIONAL DEBATE FOR THE NATIONAL POSITIONS IN INTERNATIONAL RELATIONS

Deliberative Polling® is a unique form of political consultation that combines techniques of public opinion research and public deliberation to reveal what public opinion would be on a particular issue if citizens were given a chance to become more informed. The Deliberative Poll seeks to account for the preferences and opinions of citizens both before and after they have had an opportunity to arrive at considerate judgments based on balanced information and discussion with fellow citizens.

EPI with the support of the Deliberative Polling Lab at the University of Stanford, USA, implemented the deliberative polling event for the fourth time.
