

HOW FREQUENTLY IS MEDIATION USED IN OUR COUNTRY?

NUMBER OF CASES REFERRED TO MEDIATION BY PUBLIC BODIES AND NUMBER OF SETTLED CASES IN WHICH THE PARTIES ARE PUBLIC BODIES

In July 2019, with a view to advancing the mediation concept, the Government of the Republic of North Macedonia adopted a Conclusion obliging all state bodies, institutions, state-owned public enterprises, as well as units of local self-government to make an attempt to overcome disputes by using mediation, prior to instituting court proceedings. Albeit the fact that according to data collected¹ under the survey, in 2019, there was a reduction of the number of cases referred to mediation by public bodies and of the number of cases settled through mediation in which the parties were public bodies, such a reduction might be also attributable to the total number of cases of dispute, in which the parties were public bodies.
