

# Can you hear us from the screen? THE YOUTH FOR A SAFE INTERNET SPACE!

## OTHER SOLUTIONS: THE ROLE OF OTHER ACTORS

### THE EUROPEAN UNION

National institutions should cooperate with the EU and learn from best practices in the EU member states.

EU should allocate greater funds to support the implementation of projects on combating fake news and propaganda.

### THE INTERNET USERS

Internet users should educate themselves and be aware of possible threats when going online and be cautious when interacting with others.

They should be block and report harmful content and respect the online platforms' terms&conditions.

These conclusions and recommendations are based on the findings from the youth consultation event designed to understand the youth personal experiences on the internet, both positive or negative, and their opinions on what policy actions and which stakeholders should be implementing these actions to improve the users experience.

The youth consultation events are part of the project "Make Future Together: EU and the Western Balkans from the Youth Perspective", financed by the European Agency for Cultural, Educational and Audio-Visual Policies through its Europe for Citizens programme.
