

Can you hear us from the screen? THE YOUTH FOR A SAFE INTERNET SPACE!

OTHER SOLUTIONS: COMPLEMENTARY POLICY ACTIONS

EDUCATIONAL POLICIES

Educational programs to improve the understanding of the negative potential of social media for young people, parents and teachers.

Also trainings for institutions to equip their staff with digital and media literacy skills for national and EU intuitions, CSOs and journalists.

MENTAL HEALTH ISSUES AND ADEQUATE POLICIES

Internet addiction should be addressed with adequate educational programs, by stimulating public discussion on this topic and by engaging young people in creative offline projects.

These conclusions and recommendations are based on the findings from the youth consultation event designed to understand the youth personal experiences on the internet, both positive or negative, and their opinions on what policy actions and which stakeholders should be implementing these actions to improve the users experience.

The youth consultation events are part of the project "Make Future Together: EU and the Western Balkans from the Youth Perspective", financed by the European Agency for Cultural, Educational and Audio-Visual Policies through its Europe for Citizens programme.
